

## Body of Becker on Way to Grave

REMOVING CASKET FROM HOUSE - MRS. BECKER &amp; JOHN LYNCH, HER BROTHER

This picture shows the casket of Charles Becker, executed in Sing Sing prison on July 30, being removed from the home of his widow to the Roman Catholic church of St. Nicholas of Tolentine, where mass was said over it. At the right is Mrs. Helen Becker, the widow, leaving the house on the arm of her brother, John Lynch. The casket of Becker bore a simple aluminum plate with his name and date of his death, which supplanted the silver scroll on which was inscribed, "Charles Becker, murdered July 30, 1915, by Governor Charles S. Whitman." A floral piece reading "Sacrifice to Justice" accompanied the casket to the graveside.

## RAIN HURTS ALL GRAIN GROWERS

Oats, Barley, Rye and Corn Suffer Along With Wheat.

By Joseph P. Pritchard.  
CHICAGO, Aug. 4.—Not only the producers of wheat, but the growers of oats and barley and rye have suffered from the rains. On the other hand, the corn farmer has been helped by the warm and favorable temperatures, but that plant is now getting too much moisture. The quality of the wheat has been lowered and every succeeding rain causes additional losses from shelling.

The closing of Tuesday's wheat market looked uncertain up to a late hour. Early in the session the bulls gained control and prices were advanced 1 1/4 to 1 1/2. The advance seemed to hit the longs as well as those who desired to put out hedges against the new crop, and consequently the big power was not strong enough to absorb the offerings and sharp price recessions resulted. Closings for the day showed losses of 1-2 1/4 to 1-3/4 and were only 1-8 to 1-4 above the lowest levels.

The seaboard reported cash sales of 200,000 bushels wheat, which is a mere drop in the bucket when the crop we have raised is considered. There were no sales of wheat reported at Chicago.

Statistics were mainly bullish, of which the receipts at western markets referred to above, was the leader.

Corn declined 3-8, while oats were up 1-2 to 1-8. Longs were sellers of corn, while shorts were buyers of oats. Cash sales were 170,000 bushels corn at Chicago and 105,000 bushels oats.

Losses in provisions sold rather free again Tuesday because of the bearish monthly statistics showing large stocks of meats and lard at Chicago.

One of the largest packers bought lard early, but with increased offerings the business ceased. The close was weak around in side prices.

HAIR PROVES LIFE SAVER

Woman Hit by Falling Screen is Not Badly Hurt.

CHICAGO, Aug. 4.—Miss Mary Immel, 17, wore her hair piled high on her head, in accord with the latest dictates of fashion. To this fact she owed her life Tuesday. She was walking past the Steger building, when a window screen fell from the seventh story and struck her on the head. The high mound protected her head and she was only slightly hurt.

PROTESTS TO TURKEY.

ROME, Aug. 4.—It is officially stated that the Italian ambassador at Constantinople has made another protest to Turkey because of the attitude of the Ottoman authorities towards Italian subjects. In spite of the previous protest, Italian consuls are still being detained in Turkey.

DROP BOMBS.

SOFIA, Aug. 4.—Russian aviators have attacked Constantinople, dropping a number of bombs upon the harbor works, says a dispatch from Dedagatch.

## AUTO HITS STREET CAR

One Man Is Killed and Two Injured in Detroit Accident.

DETROIT, Mich., Aug. 4.—One man was killed and two others received injuries which may prove fatal when an automobile drove into the front end of a street car.

Attempting to avoid an automobile Joseph Gornowski, driver of the machine, swerved into the path of the car. Stanley Rozek, 29 years old, was crushed in the wreckage and died three hours later in Grace hospital. Luciak Gornowski, 29 year old, had several ribs fractured and sustained internal injuries. Wiesniak Wolek, 2 years old, received a ruptured liver and many minor injuries. Both men are in a hospital and little hope is held out for their recovery.

## ALL STOCKS IN UPWARD TREND

Industrial Issues Feature Strength With War Issues Following Later.

By Broadan Wall.

NEW YORK, Aug. 3.—For the first time in weeks Wall street witnessed an all around strong stock market Tuesday, practically all classes of shares participating in the upward movement. The failure of a group to monopolize the attention was taken by brokers to indicate a continuance of the upward trend, barring the blowing up of an American ship.

Industrial shares, especially the war issues, were features of strength early in the day.

The war issues were led by Bethlehem Steel, which touched its previous record of 275. Crucible Steel and Alcoa-Chalmers, the latter also rising to a new high. Westinghouse established a new high record.

As the session progressed, the strength spread to the copper shares, Inspiration and Smelters being the leaders of this group. Good buying also became evident in the railroads. Oil shares also came into prominence with Texas company, Mexican Petroleum and California Petroleum the favorites. The close was strong with substantial gains throughout the list.

Steel common made a new high for this movement, selling at 85 5/8. Much satisfaction was expressed by brokers and speculators at the underlying strength shown by this issue, and according to good judges of the market trend, there are indications of a further upward swing in this issue.

Inspiration Copper continued to assure its position as the leader of the group. Its strength is based on the well founded expectations that it will be producing at the rate of 140,000-150,000 pounds annually by the beginning of next year. The company, it was learned Tuesday, has sold a substantial amount of copper around 20 cents a pound for delivery next year. Inspiration's cost of production is about eight cents a pound and every cent above that price means \$1 a share earned on the stock.

Studebaker was weak owing to declaration of the regular dividend of 1-4 per cent for the quarter on the common, at least 1-2 per cent having been expected.

## NATION'S DEFENSE TO BE DISCUSSED

Governors to Take Up Question of Preparedness at Meeting at Boston.

BOSTON, Mass., Aug. 4.—Military preparedness for national defense is to be discussed by the governors of the various states at the annual conference of governors to be held in Boston Aug. 24, 25 and 26, according to the program announced today by M. C. Riley, secretary of the governors' conference. While this conference includes in its membership the governors and former governors of 48 states, the Boston meeting is to have added significance by reason of the fact that adjutant generals of many states also will attend and participate in the discussion of plans for increasing the size and increasing the efficiency of the militia of the states as part of the national defense.

The discussion is to be opened by Gov. James P. Fielder of New Jersey who will read a paper on "The Relation of the State of the National Defense."

Others who will participate in the discussion are Govs. Charles S. Whitman of New York, Frank B. N. Willis of Ohio, Edward P. Dunne of Illinois, Earnest Lister of Washington, W. S. Hammond of Minnesota, and former Govs. William Hodges Mann of Virginia and Elias M. Ammons of Colorado.

"The Mexican situation and the European war doubtless have caused governors of many states to ponder their own and their state's responsibility in relation to military preparedness," said Sec'y Riley. "All the governors were consulted in the preparation of the program for the coming conference. Practically all of them had some phase of the efficiency of our citizen soldiery discussed, thus disclosing a keen interest on the part of the states in the problem now confronting the nation."

"An interest so keen as to amount to recognition by the states of a degree of responsibility."

"Utterances of many public men, magazine articles and the current news carried by the daily press all indicate that there is an increasing conviction of our citizen soldiery being discussed, thus disclosing a keen interest on the part of the states in the problem now confronting the nation."

"The suggestion followed a prediction that Russia, Germany, Japan and China would some time be arrayed in arms against the United States and that this country could not look for aid from England. He said:

"Let us call to council all the governments interested with us in preserving and protecting the Monroe doctrine and form a brotherhood compact to oppose any invasion by Europe or Asia upon this continent."

"Let us add to this compact a demand for open seas for all people and an exchange of products of nations upon equal terms to all people."

"When we have thus restored the principles of American republics, we can announce a doctrine of international law to the world, suggesting terms of amity and codes of law."

Foreign Country Partially Responsible for Labor Troubles Says Gompers.

CINCINNATI, O., Aug. 4.—Samuel Gompers, president of the American Federation of Labor, in an interview here today, said:

"I will say that corrupt influence has been brought to bear by a foreign country to cause strikes among seamen and longshoremen."

"It is not true that the ammunition being manufactured at the plants of the Union Metallic Cartridge Co. and its subsidiaries at Bridgeport, Conn., and with the strike threatened, is for the United States and that you were informed of this fact and halted the strike for that reason?" Mr. Gompers was asked.

"I will not answer that question," said the labor leader. "You may draw your own conclusions."

That the vote of European labor unions will be heard when the peace terms of the world war are fixed, Pres't Gompers believes.

SEVERAL KILLED.

BERLIN, Aug. 4.—Maj. Gen. Nicholas von Buelow, commander of an infantry brigade in the German army, has been killed in action, it was announced today.

## UNION OF AMERICAS URGED BY SEN. LEWIS

Proposes Brotherhood of All the Countries in Western Hemisphere.

ASHEVILLE, N. C., Aug. 4.—A strong governmental alliance with all the countries of South and Central America to protect the western hemisphere against invasion by European or Asiatic powers was urged by James Hamilton Lewis, United States senator from Illinois, in the principal address Tuesday night before the State Bar association of North Carolina.

The suggestion followed a prediction that Russia, Germany, Japan and China would some time be arrayed in arms against the United States and that this country could not look for aid from England. He said:

"Let us call to council all the governments interested with us in preserving and protecting the Monroe doctrine and form a brotherhood compact to oppose any invasion by Europe or Asia upon this continent."

"Let us add to this compact a demand for open seas for all people and an exchange of products of nations upon equal terms to all people."

"When we have thus restored the principles of American republics, we can announce a doctrine of international law to the world, suggesting terms of amity and codes of law."

CORRUPT INFLUENCE BLAMED FOR STRIKES

Foreign Country Partially Responsible for Labor Troubles Says Gompers.

CINCINNATI, O., Aug. 4.—Samuel Gompers, president of the American Federation of Labor, in an interview here today, said:

"I will say that corrupt influence has been brought to bear by a foreign country to cause strikes among seamen and longshoremen."

"It is not true that the ammunition being manufactured at the plants of the Union Metallic Cartridge Co. and its subsidiaries at Bridgeport, Conn., and with the strike threatened, is for the United States and that you were informed of this fact and halted the strike for that reason?" Mr. Gompers was asked.

"I will not answer that question," said the labor leader. "You may draw your own conclusions."

That the vote of European labor unions will be heard when the peace terms of the world war are fixed, Pres't Gompers believes.

SEVERAL KILLED.

BERLIN, Aug. 4.—Maj. Gen. Nicholas von Buelow, commander of an infantry brigade in the German army, has been killed in action, it was announced today.

## GIRL WILL NOT MARRY

Passes Up Fortune Owing to Conditions of Will.

SPRINGFIELD, Mo., Aug. 4.—Rather than marry and become a mother in compliance with provisions of her mother's will, Miss Mary Zeigler of Brussels, Belgium, renounced her one-third interest in her mother's estate. The renunciation was filed today in the Green county probate court.

The will was made in 1908 by Mrs. Lena Zeigler, widow of Ludwig Zeigler, once a wealthy miller of Springfield. Property valued at \$20,000 and cash bequests of \$12,500, were given to Mrs. Johanna Ledofsky, a daughter of Los Angeles, Calif.; Otto Zeigler, a son, who lives in South Africa; and Miss Mary Zeigler, the unmarried daughter, who lives in Brussels. Miss Mary Zeigler now is more than 30 years old, and, according to her letters to relatives and to attorneys for the estate, she has decided not to marry. At least she will not marry, she declared, as a part of the conditions on which she is to share in the estate of her mother.

MARRIES MAN IN PRISON

Ceremony Takes Place Inside Walls of Sing Sing.

NEW YORK, Aug. 4.—Miss Julia Sullivan of this city and Peter Cullen, a five-year convict, were married in Sing Sing prison Tuesday. The Rev. Father William Cashin, Sing Sing's chaplain, officiated.

Warden Osborne and Deputy Warden Johnson were the official witnesses.

The wedding took place so that Miss Sullivan might, thereby, acquire the legal right to care for Cullen's little brother and little sister.

HOW TO BE SLIM

By Winifred Grace Forrest.

If you are too fat and want to reduce your weight 15 or 20 pounds, don't starve and weaken your system, or think you must always be laughed at on account of your fat, but go to any good druggist, and get a box of Oil of Koren capsules, take one after each meal and one before retiring at night.

Weigh yourself once a week and note what a pleasant and reliable method this is for removing superfluous fat from any part of the body.

It costs little, is absolutely harmless and I am sure a week's trial should convince anyone that it is unnecessary to be burdened with even a single pound of unsightly fat.
